How this policy works

This 'Policy Booklet' and 'Your Schedule' details everything your pet is covered for under this policy, as well as explaining what's not covered.

Your policy

You've chosen our Lifetime pet insurance policy. This covers illnesses and injuries and allows you to claim up to a set amount for vet fees each year. You'll find all the annual limits for everything you're covered for in 'Your Schedule'. These limits are the most we'll cover per year.

For example, if you have our Lifetime £3,500 policy, you'll get £3,500 of cover per year towards your vet fees. When you renew, this limit will reset, and you'll have another £3,500 of cover for the following year.

When we say 'condition', we mean any injury or illness with a single cause or diagnosis. For example, if your pet has an accident, we'll class any injuries they suffer as one condition – even if they're in different parts of the body. Likewise, if your pet has symptoms of a condition that later appears in a different part of the body, we'll class it as one condition.

The annual policy limit in 'Your Schedule' is the most we'll pay for vet fees each year. Every time you make a claim for a new condition, you'll need to pay an excess to help cover the cost of treatment. You should check 'Your Schedule' to see how much you're covered for, and how much excess you'll need to pay. For more information on excesses see the 'Your excess' section on [page 10](#).

Exclusions on your policy

Some things aren't covered by your policy – these are known as exclusions.

It's important you read through your documents to check you understand what is and what's not covered and that you have the cover you need.

This 'Policy Booklet' details 'what's covered' and 'what's not covered' within each individual section. There is also a list of exclusions in the 'What this policy doesn't cover' section on [page 26](#). These apply to the whole of your policy.

You should check 'Your Schedule' to see if there are any other exclusions that apply specifically to you or your pet. If we include an additional exclusion to your policy, it will be for a condition, or related to a condition, that your pet had.

When this policy starts and ends

Your policy starts from the day you chose it to, but there's a waiting period before you can start making some kinds of claims.

We don't cover accidents or injuries that happen within the first 2 days of your policy start date. For example, if your cover starts on the 1st, you won't be covered for any accidents or injuries that happen before the 3rd.

We don't cover claims for illnesses where the signs or symptoms were first noticed within the first 14 days. So, if your cover starts on the 1st, you won't be covered for any illnesses that first show signs or symptoms before the 15th.

This 14-day waiting period also applies to all claims involving cruciate ligaments.

A condition starts from the date the accident happened, or the date that you, your vet or a treating professional first noticed signs or symptoms of the condition. If the condition was first noticed during the waiting period, you won't be covered if you wait until after the waiting period to get treatment.

If your pet dies – or has an accident they later die from – within the first 2 days of your policy, we won't cover your claim. We also won't cover you if your pet gets an illness within the first 14 days of your policy and dies as a result.

We won't cover claims for advertising and reward if your pet goes missing in the first 14 days of your policy.

There are several things which will end this policy. You may decide to cancel your policy, and we can cancel it too in certain situations. For more information on when we can cancel your policy see the 'Cancelling your policy' section on [page 31](#).

Changing your level of cover

If you want to change your level of cover, you should get in touch with us. We'll explain what changes you can make, and when. Changing your level of cover will affect the price you pay. We'll need to agree any changes with you, and we'll tell you how your new cover level will work, and what will happen if you've already made a claim.

Pre-existing conditions

Pre-existing conditions aren't covered by this policy. We consider a condition to be pre-existing if it was first noticed before your policy start date or within the waiting period, whether it needed treatment previously or not.

If you noticed something was wrong with your pet before you took out the policy, it could be a sign of a pre-existing condition. This is true even if you decided not to take them to the vet. For example, if your dog was limping before the policy started, and that limping was later diagnosed as Arthritis, we'd consider this a pre-existing condition.

Remember, there is a waiting period at the start of this policy. For more information, see the "When this policy starts and ends" section on [page 8](#). If a condition is first noticed or an accident happens in the waiting period, these will be considered to be pre-existing conditions as well.

Any injuries caused by accident or illnesses your pet had before you took out this policy will be considered pre-existing conditions. Any complications or conditions that later appear because of that illness or accident also won't be covered.

Conditions that affect both sides of the body

A condition or illness which affects a body part that your pet has on each side of their body, is called a bilateral condition. This could include treatment for body parts such as elbows, hips and cruciate ligaments and we consider a bilateral condition to be one condition.

All decisions about when a bilateral condition started or needed treatment are based on your pet's full clinical history. If the history confirms your pet previously had a condition and they have the same condition on the other side of the body, we'll consider this a bilateral condition.

If the condition on the opposite side of the body was first noticed before the policy start date or within the waiting period, we'll consider this a pre-existing condition. Pre-existing conditions are not covered by this policy. For example, if the pre-existing condition affected the pet's left cruciate ligament, you won't be covered if they later suffer the same condition in their right cruciate ligament.

Amounts you might have to pay

Your premium

The premium is the amount you pay us so we can provide you with insurance for your pet. You can decide to pay one amount annually or in monthly instalments. You must make sure to keep up with all your payments. If you don't, we won't cover you if you want to make a claim.

Your excess

The excess is an amount you'll need to pay when you make a claim. Different sections of the policy have different excesses, check 'Your Schedule' to find out which apply to you.

Your vet fees excess will apply to Section A. An excess will also apply to all property damage claims under Section E. You can check your excess amounts in 'Your Schedule'.

Vet fees excess

You'll need to pay one vet fees excess for each condition your pet might have. You must pay the vet fees excess directly to your vet. The vet fees excess amount won't count towards your vet fee limit.

If your pet becomes ill with a new condition, and you start a new claim, you'll need to pay the excess. If they need more treatment for the same condition in the same policy year, we'll treat this under the same claim. You won't need to pay the excess again for that condition in that policy year. If you claim for the same condition over more than one policy year, you'll have to pay the excess once per year.

Sharing the cost of the vet bill

As your pet gets older, you'll also have to start paying a percentage of the vet fees when you make a claim. This is because older pets may be more likely to get injured or to become ill. This is known as a 'co-payment' and is in addition to your vet fees excess. The co-payment amount won't be taken from your vet fee limit.

We start applying the co-payment at 8 years old for dogs and 10 years old for cats. We'll automatically apply the co-payment on the first renewal after your pet's birthday. For example, if your dog turns 8 in January, and the policy renews in July, we'll apply the co-payment after the July renewal. Check 'Your Schedule' to see if a co-payment applies to your policy.

The co-payment applies to everything you might claim for under Section A: Vet fees. This means that the co-payment also applies to claims for repeat medication.

Claims for more than your vet fee limit

We'll only cover claims up to your chosen vet fee limit. You'll need to pay any amount that is more than your vet fee limit, as well as paying your excess and co-payment where applicable.

Looking after your pet and keeping them safe

It's important you look after your pet's health. If there is something wrong with your pet's health, you should arrange for a vet to examine and treat your pet as soon as possible. If you delay getting treatment for your pet and your pet's condition is made worse because of this, we won't pay your claim. You must follow any advice given to you by a vet and arrange and pay for treatment to help lower the risk of injury or illness. If they need treatment, you need to make sure your vet is a current member of the Royal College of Vet Surgeons. You can check your vet's details here: <https://findavet.rcvs.org.uk/find-a-vet-surgeon>. If they're not, you won't be covered.

When we say 'treatment' we mean any assessments, procedures, medications, ongoing care or management that your vet or treating professional recommends. For example, consultations, examinations, advice, tests, medication, diagnostic procedures or surgery carried out by your vet or treating professional in relation to the condition. Treatment also means any ongoing care needed for that condition, for example, complementary treatments.

This policy is designed to cover you for things that happen to your pet that couldn't have been prevented or predicted. You must follow advice given to you by your vet, trainers and the authorities. For example, if the police or a vet tell you to muzzle your dog, you must do this to keep them and others safe. If you don't, you won't be covered.

Your pet's health

It's really important you vaccinate your pet to protect them from harmful diseases. If you have a dog, you must make sure they're vaccinated against distemper, hepatitis, leptospirosis, parvovirus and kennel cough. If you have a cat, you must make sure they're vaccinated against feline infectious enteritis, feline leukaemia and cat flu. If a vet recommends any other vaccinations, you must agree to those as well. It's important all your pet's vaccinations are kept up to date. You must also regularly worm your pet by following an anti-worming programme and use a product that's been recommended or prescribed by a vet.

Renewing your policy

If you pay monthly by Direct Debit or annually and have opted into auto-renewal, you won't need to do anything. Your policy will automatically renew for another year. If you paid upfront for a year and haven't opted for auto-renewal, you'll need to make a payment for your cover to continue. You can make a payment in your online account or get in touch with us to renew for another year.

 **0344 557 1246**

Animal Friends will send your renewal invitation at least 21 days before your policy is due to end. You should read the information we send you carefully. We might change some of your terms or the price you pay, so you'll need to check you still have the cover you need.

We use several factors to work out the price you pay each year. For example, the age of your pet, previous claims, where you live, and the cost of vet fees. This means that your policy price is likely to increase at renewal even if you haven't made a claim. There is no limit to how much your premium may increase each year, and the increase could be significant.

Giving us the facts

If you make a mistake

When you purchased your policy, we asked for all the information we need about you and your pet. For example, your address and your pet's breed or weight and date of birth.

If you give us wrong information by mistake, we might need to apply exclusions, change your cover, the premium you pay or the terms of this policy. You might not be able to make a claim, or we might need to void your policy. For example, if we receive veterinary evidence that your pet is a banned breed. We'll give you back any premiums you've paid in this policy year, minus the amount we've paid for your claims.

How this policy works

(continued)

We use your pet's breed, weight and date of birth to work out your premium. If we receive information from you or your vet that confirms the details we have for your pet are incorrect, we'll need to update our records. If a change is made, for example, to your pet's breed, weight or date of birth, your premium may go up or down. If you are unhappy with your updated premium you can cancel your policy at any time. If you have made a claim, you may still need to pay the remaining premium for the rest of the policy year. For more information see the 'Cancelling your policy' section on [page 31](#).

If you need to correct your or your pet's information you should get in touch with us using the contact details on [page 7](#).

If you give us wrong information on purpose

It's really important you give us accurate information at all times. If you deliberately exaggerate a claim, mislead us or don't tell us the truth, this is fraud. We won't pay your claim or give you back any premiums you've paid. We'll cancel all policies you have with us, and we won't cover you again in the future. In some cases, we'll need to tell the police or other authorities and insurance companies.

If we've paid a claim where you did not tell us the truth, we'll cancel your policy from the date you gave us the false information. We may ask you to pay us back for any claims we've paid since that date.

Keeping up to date with your payments

It's important you keep up to date with your premium. If you're struggling with your payments, please get in touch and we'll see what we can do to help. We won't cover claims if you have any unpaid premiums.

How to make a claim

We understand making a claim can be a stressful time, that's why we've made it as easy as possible for you. You can make a claim with us in the following ways:

Online through your vet

The quickest way to make a claim for Section A is through your vet, if they have access to Pawtal, our online claims system. If they do, they can make a claim directly, so you won't need to fill in any forms. Your vet can track your claim this way as well.

Using a claim form

If your vet doesn't have Pawtal or if you want to claim for Section B, C, D or F you'll need to use a claim form. Both you and your vet will need to fill out a claim form and send it back to us. We'll need this to process your claim.

For claims under Section A, we are able to pay your vet directly when you claim. However, if your vet asks you to pay for the treatment, you'll need to pay your vet and then submit your claim to us. If we accept your claim, we'll pay you directly.

Claim forms are available for policy benefits, including repeat medication and for pre-authorisations. You can download claim forms from vethealth.animalfriends.co.uk/existing-customers/make-claim/ – or give us a call and we'll send you one in the post.

 **0344 557 1246**

Sending your claim form

Once you and your vet have completed the claim form, you can send it by email to claimform@animalfriends.co.uk. If you prefer, you can post the claim form to the address on [page 7](#).

To make sure we can handle your claim quickly, please send all claim forms as soon as possible after your pet receives treatment. You must send us a new claim for each section of this policy that you wish to claim for. If you don't, we won't be able to pay your full claim. For example, if you want to claim for Section A and Section B, you must send us a separate claim for each section.

Information we need from you

We'll need a copy of your pet's full veterinary history to review any claim. We'll only be able to review claims for treatment where the veterinary history is provided in English.

All decisions on when a condition started or needed treatment will be made using the information provided by your vet in the pet's clinical history. The vet who treated your pet should provide the notes they have. We may also need to request additional information, for example, referral reports. We may contact any vet or professional involved with treating your pet or any individual that may be involved with this claim.

If your pet has ever been treated by any other vet, you'll need to contact them and ask for your pet's full veterinary history.

Sometimes we may need to contact you and ask for extra information. This helps us when reviewing your claim, and to determine whether we can pay your claim.

How to make a claim

(continued)

Through your online account

If you need to claim for repeat medication for your pet, you can do this through your online account. You can register or log in to your account through the “My Account” button on our webpage.

If your pet injures someone or damages their property

If something happens that could lead to a claim because your pet injured someone or damaged someone’s property, you must let Animal Friends know straight away. You can do this by phoning **0344 557 1246** or emailing publicliability@animalfriends.co.uk. For more information on these claims, see ‘Section E: If your pet injures someone or damages their property’ on **page 23**.

If there’s any other insurance policy that might cover an incident or claim, the other insurer must be told. You must let us know their details. We won’t cover claims if you don’t, and we don’t cover anything that’s insured under any other policy. This could include, for example, home insurance.

Checking if treatment is covered before it goes ahead

You can check if treatment will be covered, before agreeing to it. This is known as a “pre-authorisation”. The quickest way to do this is to ask your vet to check through the Animal Friends online claims system – Pawtal. Pre-authorisations are valid for four weeks from the date they are approved. A further pre-authorisation request will need to be made if the treatment is not carried out within this time frame.

If your vet doesn’t use Pawtal, they will need to complete and return the ‘pet pre-authorisation form’ from our website. Send all completed pre-authorisation forms to **claimform@animalfriends.co.uk** – including ‘Pre-authorisation’ in the subject of your email. Or you can post the pre-authorisation form to the address on **page 7**.

If you are unable to access the forms on the website, please call us to request a copy of the form.

We aim to process pre-authorisations within one working hour of them being received. This process may take longer if we have not received all the required information to assess the pre-authorisation.

When we receive your claim, we will review all the information provided by your vet. If there is any additional information which would have meant the pre-authorisation wouldn’t have been approved, we may have to change our original decision.

What this policy covers

Section A: Vet fees

✓ What's covered?

If your pet needs medical care

If your pet becomes ill or gets injured, we'll cover vet fees up to the amount shown in 'Your Schedule'. Make sure you keep your receipts and invoices safe, as you'll need to show them to us when you make a claim.

This section covers vet fees in the UK. This section also covers vet fees if your pet needs urgent medical care for new accidents or illnesses while on holiday in the EU.

Any claim in this section counts towards your overall vet fees limit.

If your pet develops a condition which affects a body part that they have on each side of their body, we'll class it as one condition. This is called a 'bilateral condition'. For more information about bilateral conditions please see the 'Conditions that affect both sides of the body' section on [page 9](#).

We'll only cover house calls, out-of-hours fees or emergency fees if your vet says your pet needs to be seen straight away.

We'll cover sedatives that your vet confirms are needed to safely and effectively examine and treat your pet.

If you're worried about your pet's health, you can use Pawsquad. It's available 24/7, 365 days a year, so you'll be able to use it when your vet is closed. It connects you with qualified vets to help diagnose the problem by either video call, telephone call or text message. If you think your pet's condition is urgent or life threatening, please contact your usual vet straight away. For more information see:

 www.pawsquad.com

Dental illness and dental accident

We'll pay for treatment of dental illness and dental accidents, as long as they're recommended by a vet. We'll only cover claims for dental illness if your pet had a dental exam within a year before the illness. You must have followed the vet's advice, and any recommended treatment must have been carried out within seven months of the dental exam. This is true unless the vet advises that the treatment could not be completed within this time frame. You would need to pay for the cost of any dental check-up carried out by your vet. This policy gives you access to Pawsquad, who offer online dental check-ups from qualified vets and registered vet nurses.

Complementary treatment

We'll pay for complementary treatments, as long as they're recommended by a vet. Some of the complementary treatments we cover include physiotherapy, osteopathy and laser therapy. We'll only cover complementary treatments that are performed by a qualified specialist. For a full list of treatments and specialists we cover, see:

 yethealth.animalfriends.co.uk/therapy

Behavioural treatment

We'll pay for behavioural treatment as long as the condition is diagnosed and treatment is carried out by a qualified specialist. For a full list of specialists, see:

 yethealth.animalfriends.co.uk/behavioural-therapies

We'll also cover the cost of medication recommended by your vet to help address a behaviour problem.

Section A: (continued)

Overseas vet fees while on holiday in the EU

We'll cover the cost of urgent medical care if your pet gets ill or is injured and needs immediate treatment while you're on holiday in the EU. Any claim counts towards your vet fees limit. We'll only cover claims for urgent treatment needed during holidays that start after you take out the policy. The accident needs to have happened, or the illness needs to have first shown signs or symptoms, while you were on holiday.

We'll only cover a total of 90 days of holiday per policy year.

We'll only be able to review claims for treatment where the invoices and medical records are translated into English. If there are translation fees, you'll need to pay for these. Any claim payment will be made using the currency exchange rate at the time.

We're only able to cover you if you're travelling to and staying in countries in the EU. For more information on the rules around taking pets to EU countries, go to www.gov.uk and search for 'taking your pet abroad'. You must follow all of these rules. We won't pay your claim if you don't. Make sure to check if the country you're travelling to has any other specific requirements before you travel.

Prescription and clinical food

We'll cover up to the amount shown in 'Your Schedule' towards the cost of prescription and clinical food. The prescription food must have been prescribed or recommended by your vet. We'll only cover clinical food to treat one of the following diagnosed conditions: bladder stones and crystals, allergies, diabetes or renal disease.

Purchasing medication online

Sometimes people choose to buy medication from a pharmacy or online instead of from their vet. If you do this, we'll cover the cost of your vet writing the prescription as well as the medication. If you buy your pet's medication from an online pharmacy, we'll cover up to £10 towards the cost of postage and packaging each time you order.

Tests needed to diagnose a condition

We'll pay for tests when they're needed to investigate or diagnose a condition covered by this policy, such as x-rays, ultrasounds, MRI and CT scans.

Supplements

We'll cover the cost of supplements which are recommended by your vet or treating professional to treat a diagnosed condition. We won't pay for any supplements that are used for preventative or elective treatment.

If your pet is put to sleep by your vet

We'll cover the cost of your vet putting your pet to sleep, if they die as a result of something covered by this policy. We'll only do this if it's needed to prevent suffering. This must be confirmed in your vet's notes.

✗ What's not covered?

Remember, there may be exclusions within 'Your Schedule'. There is also a list of exclusions in the 'What this policy doesn't cover' section on [page 26](#). These apply to the whole of your policy.

Claims at the beginning of your policy

We won't cover an accident or injury that happens within the first 2 days of the policy start date. We also won't cover any illness that starts within the first 14 days. We also don't cover any cruciate ligament conditions or injuries that start within the first 14 days. This is known as a waiting period. For more information about waiting periods, see the 'When this policy starts and ends' section on [page 8](#).

Conditions we don't cover

Pre-existing conditions aren't covered by this policy. Treatment if your pet is injured whilst travelling in a moving vehicle

You must use a lead, harness, cage, or crate to restrain your pet whilst travelling in a vehicle. If you don't we won't pay any claims if they're injured.

You should take reasonable precautions to stop your dog from escaping when opening doors and windows. We won't be able to pay claims if you don't.

If your dog is injured because they escaped, we'll ask you for an explanation of what happened. You must give us a full and true explanation, as this will be used when we make a decision about your claim.

Other tests and treatments we don't cover

We don't cover any routine, preventative, elective or cosmetic treatment, even when it's recommended by a vet to prevent an illness or injury. For example, this includes the cost of grooming, vaccinations, neutering, or flea/worm treatment. Other things we don't cover

We don't cover the cost of transporting your pet to another vet or hospital for treatment. We also don't cover the cost of an ambulance.

We don't cover pet bedding and blankets, including incontinence sheets or kennel liners, even if they've been recommended by a vet.

Section B: If your pet dies or is put to sleep

We realise it can be a difficult time when your pet dies, so we'll try to handle your claim as fast as we can. To help us do this, please tell us and your vet as soon as possible.

We'll ask your vet for your pet's records so we can confirm how and when your pet died. This information will help us take care of your policy cancellation and handle any claim faster.

✓ What's covered?

Cremation or Burial

If your pet dies or is put to sleep by a vet, we'll cover your cremation or burial costs up to the amount shown in 'Your Schedule'. We'll only do this if your pet's death was as a result of an illness or accident.

If we pay a claim under this section, we'll cancel your policy from the date your pet dies or is put to sleep. If you pay annually, you might also be due a refund. For more information about refunds, see the 'Cancelling your policy' section on [page 31](#).

✗ What's not covered?

There is also a list of exclusions in the 'What this policy doesn't cover' section on [page 26](#). These apply to the whole of your policy.

We won't cover the cost of cremation or burial if the death was caused by anything not covered in Section A. We also won't pay for any of the claims listed below.

Claims at the beginning of your policy

If your pet dies – or has an accident they later die from – within the first 2 days of your policy, we won't cover your claim. We also won't cover you if your pet gets an illness within the first 14 days of your policy and dies as a result.

Other times we won't cover a claim for your pet's cremation or burial

We also won't cover claims if the death could have been prevented by any routine, preventative or elective treatment recommended by your vet, that you didn't carry out. For example, if your pet dies from a disease that could have been prevented by a vaccination recommended by your vet.

You won't be covered if your pet dies as a result of breeding, pregnancy or giving birth.

We won't cover the costs of coffins, caskets, urns, keepsakes. We also won't cover any items designed to contain or scatter ashes.

Section C: If your pet goes missing or is stolen

Advertising and reward

We'll cover up to the amount shown in 'Your Schedule' for the cost of advertising and reward. We'll cover claims for advertising and reward if your pet goes missing or is stolen in the UK, or while on holiday in the EU.

We'll only do this if they were under the control of you, a member of your immediate family or someone that you asked to walk your pet.

As soon as you realise your pet has gone missing, you should try to find them. If your pet is lost, you must report their loss to the microchip company and your vet. If your pet is stolen, you must report the theft to the microchip company and the police and give us the crime reference number. If your pet is lost or stolen while on holiday in the EU, it should be reported to the local police. If you don't do these things, we won't cover your claim.

If you can't find your pet within 48 hours of them going missing, you can make a claim.

If your pet is lost because they escaped, we'll ask you for an explanation of what happened. You must give us a full and true explanation, as this will be used when we make a decision about your claim.

To claim a reward under this section, you'll need to show us a copy of your advert which includes the date and the reward amount. If someone finds your pet, you'll need to give us their details before we can pay the claim. If your pet is found after going missing in the EU, we'll pay the reward amount using the currency exchange rate at the time they're found. We'll only do this if the reward is covered by this policy.

You can choose to cancel your policy if your pet has been lost or stolen. If you ask us to, we'll cancel your policy from the date your pet went missing. For more information, see the 'Cancelling your policy' section on [page 31](#).

Section D: If you can't look after your pet because you're in hospital

✓ What's covered?

There may be times when you unexpectedly won't be able to look after your pet because you need to stay in hospital for emergency care. If this happens, we'll pay towards putting your pet in a cattery or kennel, or the cost of a licensed pet minder. For dogs, we'll also help towards the cost of using a professional dog walker. Either way, you'll be covered up to the amount shown in 'Your Schedule'.

We'll only pay claims under this section if you were in hospital in the UK for more than two days in a row. We'll cover costs to look after your pet from the first day of your stay.

Remember to keep hold of your receipts from the dog walker or minders, cattery or kennel, as we'll need them to handle your claim. We'll also need some information about your stay in hospital, such as the date you arrived, the date you left and the reason for your stay. This may also include some sensitive information about, for example, your health, that we need to handle your claim. For example, your pet's actions might result in someone being killed, getting injured or having their property damaged. If someone makes a legal claim against you due to an incident involving your pet, we'll cover your legal costs. If we're settling a legal claim, we'll also pay compensation and legal costs for the person making the claim.

The most we'll pay per year is shown in 'Your Schedule'.

You should let us know straight away if an incident happens, or if someone makes a legal claim against you. You must also give us any other information we ask for and let us handle the claim.

You must not admit responsibility for any incident or negotiate or agree to pay for anything. If you're sent any legal documents, don't reply to them.

Instead, send them to us straight away. You may also need to give us written statements and go to court.

You must follow advice you're given about your pet's behaviour from past owners, rehoming or rescue centre staff, vets, behaviour specialists, trainers, or the authorities. If you don't follow their advice, and that leads to a legal claim, we won't cover the claim. You're covered for incidents caused by your pet's behaviour, unless they've shown the same problem in the past. For example, if they've injured or bitten someone before.

If you own a retired working dog

If your dog received specialist training, for example, a police dog, we'll only provide cover under this section if they haven't shown any signs of aggression since retiring.

If we pay a claim under this section

If we pay a claim under this section for an incident caused by your pet being aggressive, we won't cover any future claims arising from your pet's aggression.

If someone else is responsible for covering the cost of a claim, we may take legal action on your behalf to get those costs back. We'll pay for any action we take on your behalf.

We won't cover vet fees for any animal that's injured or killed by your pet.

Other things we don't cover

We won't pay any claims for injury or damage caused by your pet if you didn't take reasonable precautions to prevent the injury or damage. For example, if you recognise your pet's behaviour is likely to cause an accident or injure a person and you didn't try to prevent the incident.

We won't cover any claims which could have been prevented by following the advice of a vet, animal professional or the authorities to manage your dog's behaviour. For example, we won't cover you if you didn't use a muzzle on your dog when you have been told to use one.

We won't cover claims for accidents or injuries which happen because your dog wasn't kept on a lead with a collar or harness anywhere near moving vehicles. This includes anywhere there could be moving vehicles, for example, on a driveway, in car parks or next to roads, including those on private land.

Remember to keep the receipts for your holiday safe, as we'll need them to handle your claim. They must include the travel dates and how much it cost you to cancel or cut short your holiday.

You must tell any travel and transport companies you booked your trip through that you need to cancel or cut short your holiday.

✗ What's not covered?

Remember, there may be exclusions within 'Your Schedule'. There is also a list of exclusions in the 'What this policy doesn't cover' section on [page 26](#). These apply to the whole of your policy.

This policy is for you and your pet, so we won't cover costs for anyone else that might be on holiday with you.

We won't cover the cost of your journey home if your pet dies before you arrange your travel home.

We won't cover costs that could've been avoided or refunded if you had told your travel company that you needed to cancel or cut short your holiday.

What this policy doesn't cover

There are some things we won't cover under any part of this policy. We've listed these below. There are additional exclusions that apply to each section of cover. Please ensure that you read the information under "What's not covered" in each section.

Claims at the beginning of your policy

There is a waiting period before you can start making some kinds of claims. For more information, see the 'When this policy starts and ends' section on [page 8](#).

Pre-existing conditions

We consider a condition to be pre-existing if it was first noticed before your policy start date or within the waiting period. This is true, whether it needed treatment previously or not. For more information about pre-existing conditions, see the 'Pre-existing conditions' section on [page 9](#).

Laws and regulations

We won't cover pandemics, epidemics or notifiable diseases. These are diseases listed by the government – for a full list of notifiable diseases, go to the www.gov.uk site and search for "notifiable diseases". If your pet has one of these diseases, you need to tell the authorities straight away.

We also won't cover claims resulting from any disease passed from animals to humans.

Pets that aren't covered

We don't cover puppies or kittens younger than four weeks old.

We don't cover any pets used for anything other than being a domestic or household pet. For example, using them for the mating and production of animals (breeding), hunting or shooting of any kind and providing assistance or care for other people.

We also don't cover any therapy animal that has been trained for the primary reason of providing care. For example, Guide dogs, Search and Rescue pets or Emergency Response pets.

Banned and excluded breeds

If we receive information from you or your vet, that your pet is either a banned or excluded breed it will affect your policy as set out below. If you are unsure if your pet is a banned or excluded breed, we'll ask you to provide us with a DNA test result for your pet. You are responsible for any costs for the DNA test. We won't review your claim, or any future claims, until we receive the results of the DNA test.

If you refuse to provide us with a DNA test result after we've asked you to provide one, we'll void your policy straight away.

We'll void the policy back to your most recent renewal date. We'll do this no matter what percentage of banned breed your pet's DNA test results show. This is true even if you didn't know your pet was crossed or mixed with a banned breed.

If you haven't made any claims in your current policy year, when we void your policy we'll refund any premiums paid for this policy year.

If we've paid a claim in your current policy year, when we void your policy we'll refund any premiums paid, minus the amount we've paid for any claims. If the amount we've paid for any claims is more than the amount you've paid in premiums for this policy year, you won't be due any refund.

Excluded breeds

As well as the breeds listed within the Dangerous Dogs Act, there are also some other breeds that we don't cover. This includes pets crossed or mixed with those breeds. You can check the full list at vethealth.animalfriends.co.uk/contact/frequently-asked-questions/our-policies/what-breeds-are-excluded, or give us a call:

If your pet's DNA test results show they have more than 50% of an excluded breed, we'll void your policy back to your most recent renewal date.

If you haven't made any claims in your current policy year, when we void your policy, we'll refund any premiums paid for this policy year.

If we've paid a claim in your current policy year, when we void your policy, we'll refund any premium paid, minus the amount we've paid for any claims. If the amount we've paid for any claims is more than the amount you've paid in premiums for this policy year, you won't be due any refund.

If any of the following things change, let us know straight away by calling **0344 557 1246**.

Some changes to your circumstances can affect the price of your policy, these are set out in this section and in 'Giving us the facts' on [page 11](#). You'll need to inform us of these changes, and we'll confirm any changes to the price of your policy. If you are unhappy with the change in the price you pay, you'll have a right to cancel your policy. Please read the rest of this section for more information.

Changes that can affect the price of your policy

You and your pet move to a new home

We use your address when we work out your premium. So, if you and your pet move to a new home, even if it's only for a short time, you should let us know. If you move to a new home, your premium may go up or down. Please contact us to update your address as soon as possible. We'll confirm if there will be a change to your premium.

If you decide to cancel because a change affects the price of your policy

If your circumstances change and this affects the price you pay, you can cancel your policy. If we have paid a claim in this policy year, you may still need to pay your remaining premiums. Please refer to the 'Cancelling your policy' section for more details.

Changes that we'll need to consider, as they may affect your cover under the terms of your policy

You must tell us if any of the following occur. Any of these changes may affect the way the terms of your policy apply:

- ❖ Your pet develops any behaviour problems or their temperament changes. For example, if they are being aggressive or attack, bite or injure a person or another animal.
- ❖ You've been told by the authorities – or advised by a vet, behaviourist, or trainer – that your dog needs to wear a muzzle.
- ❖ You plan to use your pet for breeding, working, farm work or hunting.
- ❖ Anyone makes a complaint about your pet being aggressive.
- ❖ An incident happens involving your pet which could lead to a legal claim against you.

Making changes to this policy

(continued)

If we need to make changes to this policy

When your policy is due to renew, we can make changes to your premium, your excess, or by adding or removing cover. We'll always tell you at least 21 days before your renewal date, so you can decide if your policy still meets your needs.

If this happens you will be told of this change in good time before your current policy renews and told about any changes in your policy cover. If you pay by Direct Debit then your policy may be automatically renewed with the new insurer. If you don't want your policy to be renewed then please let us know before the renewal date.

If you need to make other changes to this policy

Changing your level of cover

Making a change to the way that you pay

If you want to change the way that you pay, please get in touch. This includes changing from annual payments to monthly payments and opting into or out of auto-renewal.

Please get in touch if you need to add an authorised person to your policy. We'll ask for a copy of your Power of Attorney documents.

Which pet does my policy cover?

You'll need a separate policy for each pet that you want to insure. We don't allow customers to transfer their insurance policy from one pet to another pet. If you want to cover a new pet, you'll need to take out a new policy.

Cancelling your policy

This policy is a 12-month contract of insurance that can be paid for annually or monthly.

This section explains how you and we can cancel your policy and the effect of cancelling it at different times.

When you can cancel your policy

You can cancel your policy at any time by calling, or writing to us using the details provided on [page 7](#).

Cancelling within 14 days

If you pay annually for your policy

If you cancel within 14 days of the policy start date and we haven't paid a claim, we'll give you a full refund.

If we've paid a claim and you cancel within 14 days of the policy start date, no refund will be given. This is true unless you're cancelling because your pet has passed away or been lost or stolen. In this case, we'll refund the remaining year's premium.

If you pay monthly for your policy

If you cancel within 14 days of the policy start date and we haven't paid a claim, we'll give you a full refund.

If we've paid a claim and you cancel within 14 days of the policy start date, you must pay the remaining premiums for the rest of the policy year. This is true unless you're cancelling because your pet has passed away or been lost or stolen. In this case, we'll cancel your Direct Debit and no further payments will be taken.

Cancelling after 14 days

If you pay annually for your policy

If you cancel after 14 days and we haven't paid a claim, we'll refund you for any full months' premium remaining in this policy year.

If you cancel after 14 days and we've paid a claim for something that happened in this policy year, no refund will be given. This is true unless you're cancelling because your pet has passed away or been lost or stolen. In this case we'll refund any full months' premium remaining in this policy year.

If you pay monthly for your policy

If you cancel after 14 days and we haven't paid a claim, we'll cancel your Direct Debit and no further payments will be taken.

If you cancel after 14 days and we've paid a claim for something that happened in this policy year, you must pay the remaining premium for this policy year. This is true unless you're cancelling because your pet has passed away or been lost or stolen. In this case we'll cancel your Direct Debit and no further payments will be taken.

If you need to claim after you've cancelled your policy

If you want to claim for something that happened before you cancelled, you must pay the remainder of your full year's premium before we'll pay your claim. We won't pay any claims for something that happens after your cancellation date.

Cancelling your policy

(continued)

If you decide to cancel because a change you've made affects the price of your policy

You may need to make a change to your policy, or correct information you previously provided, which may affect the price. For example, if you move to a new home. If the change affects your price, you can cancel your policy. For information on changes you can make, see the 'Making changes to this policy' section on **page 29**.

If you decide to cancel and we've paid a claim for something that happened in this policy year, you'll need to pay the remaining premium for this policy year.

If you claimed for something that happened before you made the change to your policy

If you pay annually for your policy

If the change affects the amount of your premium and you decide to cancel, you won't receive a refund but there will be nothing additional to pay.

If you pay monthly for your policy

You'll need to pay the remaining year's premium. This will be the lower premium from either before or after you made the change.

If you claimed for something that happened after you made the change to your policy

If you pay annually for your policy

If the change lowers your premium, we'll refund you the difference between your old and new premium for the remainder of the policy year.

If the change increases your premium, you'll need to pay the difference between your old and new premium for the remainder of the policy year.

If you pay monthly for your policy

You'll need to pay the remaining year's premium. This will be your new premium from after you made the change.

If your pet dies

You can cancel your policy if your pet passes away or is put to sleep by your vet. If you let us know, we'll cancel your policy from the date your pet passed away or was put to sleep.

If your pet is lost or stolen

You can choose to cancel your policy if your pet has been lost or stolen. If you ask us to, we'll cancel your policy from the date your pet went missing.

When we will cancel your policy

We can cancel your policy for the following reasons. If we need to cancel your policy, we'll get in touch with you first by email or post.

If you don't keep up with your payments

If you're unable to make a payment, please get in touch with us to find out how we can help.

If we don't hear from you, we'll cancel the policy one month after the date we last received a payment. We may be able to reinstate the policy if you pay within 28 days of the cancellation date, and your pet's health hasn't changed.

If you don't give us accurate information

It's really important you give us accurate information at all times.

If you give us wrong information by mistake, we might need to void your policy. For example, if we receive veterinary evidence that your pet is a banned breed. We'll give you back any premiums you've paid in this policy year, minus the amount we've paid for your claims.

If you deliberately exaggerate a claim, mislead us or don't tell us the truth, this is fraud. We won't pay your claim or give you back any premiums you've paid. We'll cancel all policies you have with us, and we won't cover you again in the future. In some cases, we'll need to tell the police or other authorities and insurance companies. If we've paid a claim where you did not tell us the truth, we'll cancel your policy from the date you gave us the false information. We may ask you to pay us back for any claims we've paid since that date.

If you use your pet for breeding, working or hunting

This policy doesn't cover pets used for breeding, working, farm work or hunting. We'll cancel your policy if we receive information that shows your pet is being used for any of these. We'll cancel your policy from the date we receive the information.

If your pet dies

We'll cancel your policy if we receive information from you, or your vet, which confirms that your pet has passed away or was put to sleep. We'll cancel your policy from the date your pet passed away or was put to sleep.

If you move abroad

Our policies only cover people that live with their pet at a permanent address in the UK. If you move out of the UK, you must let us know and we'll cancel your policy.

If we cancel your policy and you haven't made a claim in this policy year and you pay your premiums monthly, we'll cancel your Direct Debit. If you paid for your policy annually, we'll refund the remaining months of cover. If we've paid claims for something that happened this policy year, and you pay premiums monthly, you must pay the remaining premiums for the rest of the policy year. If you paid for your policy annually, no refund will be given.

If we stop selling the product

As part of our ongoing commitment to provide customers with pet insurance that meets their needs, we regularly review the insurance products we offer. We may make the decision to withdraw a product or level of cover from our range. If we do this, we'll clearly explain this in your renewal invitation. We'll send you this at least 21 days before your policy is due to end. We'll also provide you with information about other cover options available.
